MEMORANDUM FOR MR. BUNDY

I've been worried about an action tack in SEA to take us through the period of a Congressional Resolution and prior to a Presidential Decision.

Laos is the obvious place to run this tack; but I don't think the Department is really getting down to it. Bill Bundy's Laos people are weak, and Sullivan is diffident about intruding into this area; nevertheless, the thoughts in the attached memorandum come largely from him.

Mike

Michael V. Forrestal
